

Arts in Practice

Applied senior subject

Applied

Arts in Practice embraces studies in and across the visual, performing and media arts — dance, drama, media arts, music and visual arts. The interdisciplinary nature of the arts is becoming a more prevalent characteristic of contemporary arts practice.

Students engage with two or more art forms to create an artwork. They explore the core of arts literacies and arts processes, apply techniques and processes, analyse and create artworks, and investigate artists' purposes and audience interpretations.

Students have the opportunity to engage with creative industries and arts professionals as they gain practical skills, use essential terminology and make choices to communicate ideas through their art-making.

Pathways

A course of study in Arts in Practice can establish a basis for further education and employment by providing students with the knowledge and skills that will enhance their employment prospects in the creative arts and entertainment industries. Employment opportunities, with additional training and experience, may be found in areas such as arts management and promotions, arts advertising and marketing, theatre and

concert performance, multimedia, video game and digital entertainment design, screen and media, and creative communications and design.
