

# JAPANESE (JPS) – Year 10

## Subject Outline:

The Year 10 Japanese course is an exciting program that integrates the study of the Tourism Industry with the Japanese language. This concept was awarded a Languages Innovations Grant in 2016 and builds on learning from Year 9 Japanese to prepare students for work skills and senior schooling in this subject.

Future employment opportunities and skills shortages within the Tourism sector have prompted the Year 10 Japanese program to evolve into the KLIP Program (Kepnock Languages Integrated Program). Students have the opportunity to learn how languages can be applied practically within our region, state, and country within the tourism employment sector.

## Course Content:

The KLIP program in Year 10 focuses on the following themes:

Topic	Description
My Region	Local Tourist Attractions Giving and Following Directions Familiarisation Tours and Guiding
Job Opportunities	Travel and Tourism Future Employment
International Destinations	Other countries Travelling Through Japan

## Assessment Outline:

Students move on from regular and consistent Folio Assessment in Junior, to integrated assessment, using multi-modal assessment instruments and cognitive strategies in preparation for Senior Schooling.

## Learning Pathways:

Year 11/12 Subject	General/Applied/Other	Potential QCE Points	Recommended
Japanese	General	4	Sound Achievement in 10 Japanese

## Career Pathways:

- Tourism and Hospitality
